

Shirts shown here are made to order in your choice of fabric and colour, with or without velcro strips for attaching position patches. There are no minimum order quantities, and our shirts are proudly made in Australia, in our own factory in Newcastle.

There are two different fabric types ...

- **hydromesh**, which is a polyester microfibre fabric treated for quick sweat evaporation to keep you dry.
- **sportz**, which is 50/50 polyester cotton, the polyester is on the outside and the cotton is the inside layer next to your skin, also treated for quick sweat evaporation.

Also available are optional extras such as velcro for position patches, striped or patterned collars, piping, as well as screen printing and embroidery. Additional costs for these extras are shown below. Some photographs may show shirts with optional extras - shirt prices quoted are for base shirts only and optional extras are to be added.

If you have a special requirement, perhaps a particular style and colour of shirt you already wear, please contact us by phone or e-mail for information and pricing.

plain polo shirt

1255 sleeveless fitted (size chart 4)

The charts are provided as a guide only. You may not fit into the bust/waist/hip measurements for one size, and men and children will certainly not conform to all measurements shown. Take care to use the correct size chart for the style you are ordering. More info is available on the web site, including charts showing actual measurements of garments. Contact us if you are unsure of sizing, as garments custom made to your order cannot be returned or exchanged.

please remember that made-to-order shirts and skirts cannot be exchanged or returned

we make in Australia and employ Australian workers - support Aussie made
